

JAID SUTAR

Full-Stack Developer

Pune, Maharashtra, India | +91 8956063127 | sutarjaid970@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1.4+ years of professional experience in designing and developing scalable web applications using React.js and Django (Python). Experienced in REST API development, third-party API integration (Nexar), authentication systems, role-based access control, and MySQL database design. Proven ability to deliver production-ready applications with optimized backend logic and responsive UI architecture.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript (ES6+), Python
- **Frontend :** React.js, React.js Router, HTML5, CSS3, Ant Design, GSAP
- **Backend :** Django, Django REST Framework, JWT Authentication, REST API Design & Development
- **Database :** MySQL, SQLite
- **API Integration :** Nexar API, Third-party REST APIs
- **Tools & DevOps :** Git, GitHub, Postman, VS Code

WORK EXPERIENCE

Full-Stack Developer

Jan 2025 – Present

Teople Technologies

- Developed and maintained responsive web applications using React.js, JavaScript, and CSS, ensuring smooth user experience.
- Built a multi-step employee management system with form validation, dynamic rendering, and role-based access.
- Integrated frontend with backend APIs using Django REST Framework, improving data handling and performance.
- Designed reusable UI components and optimized page load performance.

PROJECT

Jan 2025 – Present

BOM Management System with Nexar API Integration

Teople Technologies

- Developed a BOM (Bill of Materials) management system to manage and track electronic component data.
- Integrated Nexar API using Python to fetch real-time electronic component details, availability, and specifications.
- Implemented backend logic in Django for processing API data and storing structured component information.
- Designed RESTful APIs for frontend-backend communication.
- Built dynamic React UI for BOM upload, component listing, and data visualization.

Employee Management System

- Developed a scalable full-stack Employee Management System using React.js (frontend) and Django (backend).
- Designed and implemented RESTful APIs using Django REST Framework for seamless data communication
- Built secure JWT-based authentication and role-based access control (Admin, HR, Employee).
- Implemented multi-step dynamic forms with validation for employee data, documents, and onboarding workflows.
- Developed leave management module with request, approval/rejection flow, and leave balance tracking.
- Built attendance system with date-wise tracking, in-time/out-time, and working hours calculation

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Dr. Babasaheb Ambedkar Technological University (DBATU)

- Final CGPA: 7.8

Aug 2021 – May 2025

Higher Secondary Certificate (12th)

Balaji College, Ichalkaranji

- Percentage: 84%

Secondary School Certificate (10th)

D.K. Patil School

- Percentage: 65%
